MEMBERSHIP APPLICATION FORM

Art by the Sea Gallery & Studio is an art collective comprised of local artists who display work of their own creation for sale and share the duties of gallery and classroom operations through committee work and gallery sitting.

We organized in March, 2012 and became an LLC (Limited Liability Corporation) with members who are partners in the corporation.

Income to pay for gallery expenses comes from monthly dues, a 12.5% consignment fee on sales and from classroom rental and various annual events.

Members share in gallery sitting. Days per month fluctuate, depending on how many sitting members we have.

Regular membership is \$80 a month with member sitting two days per month.

Membership is on a month-by-month basis, with one additional month's dues to be paid on termination of membership.

All members serve on at least one committee to share in the business operations of the gallery.

Occasionally when we need to purchase specific items, the members equally pay additional fees to cover the costs, based on a vote of the membership. The founding members paid \$65 each to cover the expense of setting up the business. New members each will be charged a \$65 joining fee, in addition to their first month's dues.

We are interested in both two and three dimensional artwork. We are open to artists at all stages in their artistic endeavors.

What we are looking for:

- Quality of work.
- Quality of presentation of work.
- Ability to work with other members in attitude and matters of compromise.
- Ability to interact with the general public in a positive (and sales worthy) manner.
- Understanding that the organization is not just about selling art but also about teaching, learning and getting our work seen by the public.
- Artwork that fits a category needed by the gallery and/or is somewhat different from the work of existing members.

Benefits of being a member of Art by the Sea Gallery & Studio:

- Beautiful gallery space at 145 Fillmore Avenue SE, Bandon in which to show and sell your work.
- Classroom space in which to take classes and also teach classes.
- Camaraderie with other artists who wish to market their artwork and strive to improve their art vision and artwork.
- A Collective provides combined buying and spending power.
- Website, Facebook and Instagram presence that features individual and group activities and can provide a link to your individual website, if you have one.
